

## Starlink Kit California "Prop 65" Statement

California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65") was enacted to give California citizens the ability to make informed decisions and protect themselves from potential exposure to carcinogens and reproductive toxins.

Space Exploration Technologies Corporation recognizes the importance of restricting and regulating chemicals in our products, as it is essential in maintaining the safety of our customers. All Starlink Kits are compliant with global requirements, i.e. RoHS, REACH and Prop65.

Based on product design and supplier material disclosures, we have determined that Starlink Kits do not contain chemicals in amounts which would trigger a notification or warning under Proposition 65.

See <http://www.oehha.ca.gov/prop65> for more information on Proposition 65.
